

Malaga Bank's New Website Information Sheet

We're excited to announce that on July 11, our new website will launch with a fresh look and easier navigation to better suit your banking needs.

The website URL will remain **www.malagabank.com**. The new website will not, however, change the functionality and experience within Online Banking or the Malaga Mobile App.

After months of planning and designing, our new site (still located at www.malagabank.com) will feature a refreshed look, improved navigation, and easy-to-use menu options. Understanding that a new website will help serve our customers in new and deeper ways while still maintaining who we are as a local community bank, we set about to improve our customer experience.

Our new website highlights our commitment to creating the best online experience possible for our customers. Access the same great services and resources you're used to, but with a fresh new online look and feel!

- Our routing number and phone number can be found in the top right of your screen. At Malaga Bank, we'll answer your call during our regularly scheduled open hours.
- Our new "Need Help" tab offers easy to find contact information regarding your accounts or debit cards.
- The main navigation menu remains at the top of your window as you move through each page allowing for easier and faster access to the site's different pages. We've also made strides to improve our web design and content according to ADA Web Content Accessibility Guidelines (WCAG).
